

**Laser Development and Engineering
Division**

**Mechanical Engineering and Design Shop
Location of Facility: LLE**

Milton Shoup Mechanical Engineering Shop Manager 585-275-9636

E. Michael Campbell, PhD Laboratory Director

Jonathan Zuegel, PhD Laser Development and Engineering Division Director

Description of Facility:

The Mechanical Engineering and Design Shop provides the full range of mechanical design, engineering, fabrication, assembly and testing capabilities. The shop specializes in the design and construction of unique and precision components and structures and has resident CAD and FEA engineering specialists to support research projects.

The services of the Mechanical Engineering and Design Shop are available to any University customer seeking the broad range of skills from design to prototype sample and in-house metrology. The present shop rate is \$93/hour. Estimates are available by contacting Milton Shoup. Services are requested by providing an account number and approving the estimate.

Effective: 10/18
